

Covid-19 Pool Usage Conditions

1. Violations will be based on the current pool rule grid: An example of: a) minor severity would be not wearing a mask outside the pool or not distancing with someone not in the household for a short period of time less than 5 minutes; b) moderate violation –no mask for a considerable amount of time and more than one person inside bathroom (children under 8 exception with parent); c) severe - extensive non-compliance of distancing and no mask, entry without appointment; d) activity resulting in severe health risk – coughing and sneezing with no mask or social distancing. All will be determined by the Board on an individual basis during review. (Refer to the website www.oakhillshoa.org Under the **Amenities** tab click on **Pool and Hot Tub** link. At the bottom of the page, click on Pool and Spa Rules Violation Penalty Schedule)
2. Bathrooms be open for both genders (**one person at a time**). Something new: the entry door will have a lock on the inside to allow for one person usage at a time (except for children that need to be accompanied). The showers will not be accessible. It is recommended to take a shower at home before going to the pool. Masks are to be worn inside the Pool Facility.
3. The Hot Tub is currently closed per Monterey County Health Department.
4. Please observe the rules we should all know by now on the signs:
 - a) Face covering is required for all those on the pool deck. Do not wear a face covering while in the pool.
 - b) Stay at least 6 feet away from others to maintain social distancing.
 - c) Keep your hands clean by washing hands with soap and water, especially after going to the bathroom, before eating, and after blowing your nose, coughing, or sneezing. (A hand sanitizer station will be added inside the pool area.)
 - d) Wear face coverings except when exempted by the Health Officer (and as mentioned when in the pool.)
 - e) **DO NOT** visit the pool or other public areas if you are sick with COVID-19, were recently exposed (within 14 days) to someone with COVID-19, or experience the following symptoms: **fever, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, new loss of taste or smell.**
 - f) **DO NOT** gather in large groups.
5. Maximum capacity allowed in the pool facility is 30 people. Of that number, a maximum of 12 people in the pool at any given time except between 7:00 a.m. and 10:00 a.m. for lap swimmers only (limited to 4 people). This is in the OSHA guidelines which recommends no more than one person per 60 sq. feet. 12 is per 100 sq. feet.
6. **Each person must have a scheduled appointment upon entry.** A Daily Signup Sheet will be provided inside the gate area. Each household may only reserve one 90-minute block of time or less per day. ***Early morning lap swims will be between 7:00 a.m. and 10:00 a.m. with 30 minute or one-hour time blocks max with only 4 in the pool at a time.*** The Daily Signup Sheet allows for 30 people to sign up for each time block, (one person per slot). Each signup requires a contact phone number (one per household is enough). No more than 30 people are allowed in the pool area at any one time. **Anyone found to have entered the pool without an appointment will lose their entry**

Covid-19 Pool Usage Conditions

privileges for the rest of the season. This will be considered a severe violation. No exceptions.

7. No more than one person or one household may enter the pool gate at a time.
8. Areas marked around the pool with tape, denoting required distancing, are for those not in the same household. People can cluster together only with those that live in the same household. Areas on the grass will be marked as well with lawn paint.
9. Waivers must be signed before allowing access to the pool agreeing that they enter with no COVID-19 symptoms, cough, high temperature and abide by the posted guidelines. It should be understood that any non-compliance could shut down the pool. All pool entry cards have been disabled for access to the INSIDE pool gate. They will be enabled once the waiver is signed and delivered to the Administrator, Steve Naslund. Please put the waiver in an envelope and deposit it into the Drop Box located inside the front pool facility gate. The sooner you turn in your waiver to Steve, the sooner he can activate your card. Be aware that he works part-time. He will activate as many cards as are received. There will inevitably be a lag time between the time you leave your waiver in the drop box. In most cases cards are activated within 72 hours. At the bottom of the waiver, clearly write your email and pool card number (printed on card starting with "28") so Steve can notify you once your card has been activated for the Inner Gate.
10. There is something new for pool entry (it is a little tricky but you will get the hang of it). Your card will remain activated for the outside entry gate for use of the Drop box and bathrooms. Another electronic card reader was added during renovation of the system on the pool side of the Inner pool gate frame. That reader is accessible from the pool side of the Inner gate. When your card has been activated for the inside gate, merely slide your card on the side of the reader just inside the Inner gate. **For increased security, the Inner gate will always be locked so one must use their pool card key to exit as well.**
11. Hours of operation: Refer to posted times at the Pool Facility or on the website www.oakhillshoa.org.
12. Eating and drinking (non-alcoholic beverages) will still be allowed.
13. Those under the age of 18 years are prohibited from entering the pool without an adult from the same household.
14. Guests of the household are prohibited from entering the pool facility area. Only those living in the same household are allowed entry.
15. All pool furniture will be stored and unavailable for use. You may bring your own chairs and tables for your personal use.
16. All contact surfaces will be sanitized once a daily.
