**Extract from California Civil Code § 5730
Notice Regarding Assessments and
Foreclosure**

NOTICE ASSESSMENTS AND FORECLOSURE

This notice outlines some of the rights and responsibilities of owners of property in common interest developments and the associations that manage them. Please refer to the sections of the Civil Code indicated for further information. A portion of the information in this notice applies only to liens recorded on or after January 1, 2003. You may wish to consult a lawyer if you dispute an assessment.

ASSESSMENTS AND FORECLOSURE

Assessments become delinquent 15 days after they are due, unless the governing documents provide for a longer time. The failure to pay association assessments may result in the loss of an owner's property through foreclosure. Foreclosure may occur either as a result of a court action, known as judicial foreclosure or without court action, often referred to as non-judicial foreclosure. For liens recorded on or after January 1, 2006, an association may not use judicial or non-judicial foreclosure to enforce that lien if the amount of the delinquent assessments or dues, exclusive of any accelerated assessments, late charges, fees, attorney's fees, interest, and costs of collection, is less than one thousand eight hundred dollars (\$1,800). For delinquent assessments or dues in excess of one thousand eight hundred dollars (\$1,800) or more than 12 months delinquent, an association may use judicial or non-judicial foreclosure subject to the conditions set forth in Article 3 (commencing with Section 5700) of Chapter 8 Part 5 of Division 4 of the Civil Code. When using judicial or non-judicial foreclosure, the association records a lien on the owner's property. The owner's property may be sold to satisfy the lien if the amounts secured by the lien are not paid. (Sections 5700 through 5720 of the Civil Code, inclusive)

In a judicial or non-judicial foreclosure, the association may recover assessments, reasonable costs of collection, reasonable attorney's fees, late charges, and interest. The association may not use non-judicial foreclosure to collect fines or penalties, except for costs to repair common areas damaged by a member or a member's guests, if the governing documents provide for this. (Section 5725 of the Civil Code)

The association must comply with the requirements of Article 2 (commencing with Section 5650) Chapter 8 of Part 5 Division 4 of the Civil Code when collecting delinquent assessments. If the association fails to follow these requirements, it may not record a lien on the owner's property until it has satisfied those requirements. Any additional costs that result from satisfying the requirements are the responsibility of the association. (Section 5675 of the Civil Code).

At least 30 days prior to recording a lien on an owner's separate interest, the association must provide the owner of record with certain documents by certified mail, including a description of its collection and lien enforcement procedures and the method of calculating the amount. It must also provide an itemized statement of the charges owed by the owner. An owner has a right to review the association's records to verify the debt. (Section 5660 of the Civil Code)

If a lien is recorded against an owner's property in error, the person who recorded the lien is required to record a lien release within 21 days, and to provide an owner certain documents in this regard. (Section 5685 of the Civil Code)

The collection practices of the association may be governed by state and federal laws regarding fair debt collection. Penalties can be imposed for debt collection practices that violate these laws.

PAYMENTS

When an owner makes a payment, he or she may request a receipt, and the association is required to provide it. On the receipt, the association must indicate the date of payment and the person who received it. The association must inform owners of a mailing address for overnight payments. (Section 5655 of the Civil Code)

An owner may, but is not obligated to, pay under protest any disputed charge or sum levied by the association, including, but not limited to, an assessment, fine, penalty, late fee, collection cost, or monetary penalty imposed as a disciplinary measure, and by so doing, specifically reserve the right to contest the disputed charge or sum in court or otherwise. An owner may dispute an assessment debt by submitting a written request for dispute resolution to the association as set forth in Article 2 (commencing with Section 5900) of Chapter 10 of Part 5 of Division 4 of the Civil Code. In addition, an association may not initiate a foreclosure without participating in alternative dispute resolution with a neutral third party as set forth in Article 3 (commencing with Section 5925) of Chapter 10 of Part 5 of Division 4 of the Civil Code, if so requested by the owner. Binding arbitration shall not be available if the association intends to initiate a judicial foreclosure.

An owner is not liable for charges, interest, and costs of collection, if it is established that the assessment was paid properly on time. (Section 5685 of the Civil Code)

MEETINGS AND PAYMENT PLANS

An owner of a separate interest that is not a time-share may request the association to consider a payment plan to satisfy a delinquent assessment. The association must inform owners of the standards for payment plans, if any exist. (Section 5665 of the Civil Code)

The board of directors must meet with an owner who makes a proper written request for a meeting to discuss a payment plan when the owner has received a notice of a delinquent assessment. These payment plans must conform with the payment plan standards of the association, if they exist. (Section 5665 of the Civil Code).

ALTERNATIVE DISPUTE RESOLUTION

Beginning January 1, 1994, California law provides that when the owner of a separate interest (a Homeowner) or the common interest development (CID)/association brings an action: a) solely for declaratory relief or injunction relief; or

b) either of those in conjunction with a claim for monetary damages; (Other than Association Assessments, not to exceed \$5,000)

relating to the enforcement of the governing documents of the association, they shall endeavor to submit the matter to alternative dispute resolution (ADR).

What this means, in general, is that in those prescribed types of disputes, before filing a lawsuit, an attempt must be made to settle. This must be done in a semi technical manner. The method of beginning the attempt at ADR is to serve on the opposing party a Request for Resolution. With certain exceptions, the law requires a certificate be filed with any civil action, certifying compliance with the above stated requirements.

Please be advised that the statement above is intended to be only the broadest of interpretations and merely to advise that such a law exists. There are a number of other factors involved, including attorney's fees; arbitration or mediation costs; and the results of not conforming to this law (*Civil Code § 5825 through 5965*).

The California legislature has also provided that each year your Association must send out a summary of this law and that summary must specifically include the following excerpt of the law:

“Failure by any member of the association to comply with the pre-filing requirements of § 5930 of the *Civil Code* may result in the loss of your rights to sue the association or another member of the association regarding enforcement of the governing documents”.

As you can see, failure to comply with this law may prejudice your rights. We strongly urge each one of you to carefully read the statute and consult with an attorney prior to commencing any litigation regarding the enforcement of the governing documents.

INTERNAL DISPUTE RESOLUTION PROCEDURE

The California Legislature has adopted new regulations codified in *Civil Code Sections 5900 through 5920*, which require Associations to adopt fair, reasonable and expeditious dispute resolution procedures, effective January 1, 2005. This separate and apart from, and precedes, the formal ADR (Alternative Dispute Resolution) requirements set forth in *Civil Code Section 5925 through 5965*. The Association has adopted the following procedures as required under such law:

1. The Association or an Owner may invoke the procedures herein by submitting a request to the other to meet and confer in an effort to resolve any existing dispute. The request must be in writing.
2. An Owner may refuse a request to meet and confer made by the Association with the understanding that further enforcement action may be taken if the dispute is not resolved. The Association may not refuse a request by an Owner to meet and confer.
3. The Association's Board of Directors shall designate a Board member to meet and confer with an Owner.
4. The designated Board member and the Owner shall meet promptly at a mutually convenient time and place. The parties shall explain their positions to each other and attempt, in good faith to resolve the dispute.
5. Any resolution of the dispute agreed to by the parties shall be set forth in writing and signed by the Owner and the designated Board member on behalf of the Association.
6. An agreement reached under this procedure is binding on the Owner and the Association and is enforceable in court if both of the following conditions are met:
 - a. The agreement is not in conflict with law or the Association's governing documents.
 - b. The agreement is consistent with the authority granted by the Board of Directors to the designated Board member or is ratified by the Board.
7. Owners will not be charged a fee to participate in the process.

OAK HILLS HOMEOWNERS ASSOCIATION DELINQUENT ASSESSMENT COLLECTION POLICY

Prompt payment of assessments by all owners is critical to the financial health of the Association and to protect, maintain and enhance the property values of our homes. Your Board of Directors takes very seriously its obligations under the CC&Rs and the California Civil Code to enforce the owners' obligations to pay assessments, and as such, asks that you please read the following practices and policies:

Due Date

- Regular assessments are due in advance on the first (1st) day of each assessment period and become delinquent if not received, in full, by the Association within forty-five (45) days after the due date. Special Assessments and Individual Special Assessments are due on the date(s) specified upon imposition and each installment thereof shall be delinquent if not received by the Association within
days after the specified due date.

Late Fees

- A late charge not exceeding ten percent (10%) of the delinquent assessment or ten dollars (\$10.00), whichever is greater, unless the Declaration specifies a late charge in a smaller amount, in which case any late charge imposed shall not exceed the amount specified in the Declaration, shall be due on any such delinquent assessment, unless the Declaration specifies a late charge in a small amount, in which case the late charge imposed shall not exceed the amount specified in the Declaration or the Civil Code.

Interest

- Interest on all sums imposed in accordance with California Civil Code 1366, including the delinquent assessment, reasonable fees and costs of collection, and reasonable attorneys' fees, at an annual interest rate not to exceed twelve percent (12%), or the amount allowed by law, shall be due commencing One Hundred Eighty (180) days after the assessment becomes due, unless the Declaration specifies the recovery of interest at a rate of a lesser amount, in which case the lesser rate of interest shall apply.

Payments

- All such amounts and all other assessments and related charges thereafter due to the Association until all such amounts are paid, must be paid in full and the Association shall not be required to accept any partial or installment payments from the date of the institution of an action to enforce the payment of delinquent amounts in the time that all such amounts are paid in full.

Application of Payments

- All payments received by the Association, regardless of the amount paid, will be directed to the oldest assessment balances first, until which time all assessment

balances are paid, and then to late charges, interest and costs of collection (including attorneys' fees) unless otherwise specified by written agreement.

Pre-Lien

- At least thirty (30) days prior to recording a lien on the separate interest property, the Association must provide the owner, in writing, by certified mail all of the information as required by California Civil Code 1365.1. Attorneys' fees and costs in the collection of a past due account will be charged to the delinquent owner.

Dispute Resolution

- An owner who is in receipt of a Pre-Lien Notice may request and the Association will comply to participate in a dispute resolution program. The owner may choose Internal Dispute Resolution (IDR) in which the owner will "meet and confer" with the Board or their representatives or they may choose Alternative Dispute Resolution (ADR) with a neutral party to mediate. The cost of ADR will be as provided by law.

Notice of Delinquent Assessment (Lien)

- If an owner does not request dispute resolution within thirty (30) days from the date of the mailing of the Pre-Lien Notice, or upon the conclusion of dispute resolution, the Board shall vote in an open meeting to determine whether a Notice of Delinquent Assessment shall be recorded. Any decision to record a Notice of Delinquent Assessment must be approved by a majority of the Board and shall be recorded in the minutes of that meeting. A copy of the Notice of Delinquent Assessment will be mailed by certified mail to all record owners of the separate interest no later than ten (10) calendar days following the date of its recordation.

Payment Plan

- An owner may make a formal written request to meet with the Board to discuss a payment plan for the debt described in the Pre-Lien Notice. The Board shall meet with the owner, in executive session, within forty-five (45) days of the postmark of the notice, if the request is mailed within fifteen (15) days of the date of the postmark of the notice, unless there is no regularly scheduled Board meeting within that period.

Foreclosure

- Delinquent Assessments, which comply with the provisions of California Civil Code 1367.4, can be collected using Judicial or Non-Judicial Foreclosure of the owner's separate interest property.

Redemption

- Property foreclosed upon by the Judicial or Non-Judicial process is subject to the right of redemption as provided by law.

Remedies

- In addition, to and/or in place of any other remedy specified in this Collection Policy, the Association shall be entitled to bring an action at law against the owner personally responsible for the payment of the amount due.

Attorneys' Fees and Costs

- The Association shall be entitled to charge the owner for the reasonable costs of collection, including without limitation, attorneys' fees, in addition to the late charges imposed in accordance with the Collection Policy.

Returned Check Charge

- The Association shall charge a "returned check charge"; our current fee is twenty- five dollars (\$25.00) for all checks returned as "non-negotiable", "insufficient funds" or for any other reason.

Mailing Address

- All above-referenced notices will be mailed to the record owner(s) at the mailing addresses provided in writing to the Association by such owner(s). It is the owner's responsibility to inform the Association, in writing of their current mailing address or secondary address.

Payment Address

- The mailing address for the overnight payment of assessments is the same as that for routine assessment payments unless otherwise noted.

Policy Revision

- The policies and practices outlined shall remain in effect until such time as they may be changed or modified or amended by a daily adopted resolution of the Board of Directors. Owners will receive a revised policy at least thirty (30) days prior to its implementation.

At the hearing, the homeowner or homeowner's counsel will be allowed to speak to the OHHA Board concerning the alleged violation and to provide documentation for the OHHA Board to consider.

OAK HILLS HOMEOWNERS ASSOCIATION

General Association Information

This Reserve Study and Cash Flow Analysis have been prepared for the board and their members. Oak Hills Homeowners Association located in Monterey County in the City of Salinas, CA. Each owner receives title to his unit, a membership in the Oak Hills Homeowners Association, and an undivided percentage interest as tenant in common in the common area on which their unit is located. The Board of Directors is accountable to the membership for the management and operation of the association. The reserve study and/or update summary and its recommended funding plan provides financial guidance which is often indispensable and shows due diligence from the board and its members.

The board is hereby requested to review and notify Golden Consulting Group within 30 days after the receipt of the study or update with any requested changes, errors or discrepancies within the report. Golden Consulting Group will act within 48 hours to address any requested changes, errors or discrepancies within the study or update. The reserve study or update should be reviewed and approved by the board within 30 days of the receipt of the report.

The board is cautioned to understand that the funding plan has projected the current funds on hand and has increased the contributions in accordance to the thirty (30) year cash flow analysis as required by Davis-Stirling Act. It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. Golden Consulting Group has estimated and projected future cost of repairs and replacement of those components for the Board of Directors of the above Homeowners Association.

Board Alterations to Study and/or Updates

Question: I'm on our board and we just completed reviewing our reserve study. There are items on the list with a life that equals or exceeds the estimated life of the buildings. We wanted them removed, but the analyst refused. Doesn't our board have the authority to remove components?

Answer: Not really. That's like asking an attorney to change his legal opinion because the board disagrees with it. Or telling a CPA to change his audit report because directors don't like what he found. A reserve specialist is a professional who prepares a report based on his own observations and calculations--it's his report to the board.

Adjustments. Accordingly, boards have no "right" to dictate changes to an independent professional's report. However, adjustments can be made to draft opinions/reports by attorneys, CPAs and reserve specialists if the adjustments are reasonable and the professional agrees. For example if something is unclear or is missing and needs to be addressed by the professional, it can be included in the final report.

Funding. Although reserve specialists establish the list of major components, the board can choose not to fund particular items if it complies with Davis-Stirling disclosure requirements, i.e., the report must disclose:

Whether the board of directors of the association has determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement. (Civ. Code §5300(b)(4))

Accordingly, a reserve study could list components in the inventory and then eliminate them from funding calculations with a note that funding was removed at the board's request.

30-Year+ Life. Including components in the Study with useful life of over 30 years with no funding creates a "marker" for future inclusion in the funding plan when the life expectancy falls below 30 years. This is especially important when it comes to plumbing systems since they are hidden in walls and frequently overlooked by boards--until they fail and large special assessments are needed.

OAK HILLS HOMEOWNERS ASSOCIATION

Percent Funding of Reserves

The Oak Hills Homeowners Association was originally built in and/or renovated in 1979 became an active Homeowner Association in 1979. An on-site visual inspection of the common reserve components was performed on September 24, 2020 by Golden Consulting Group.

The percent funded for Oak Hills Homeowners Association at Fiscal Year Ending, December 31, 2022 is estimated at 106%. Golden Consulting Group has based this method of calculation by dividing the actual reserve account balance as of fiscal year end by the estimated amount required in the reserve fund at the end of the current fiscal year. Based on the enclosed current 30 Year Reserve Study Funding Plan it is estimated that the reserve account balance SHOULD BE sufficient at the end of each year to meet the Association's obligation for repair and/or replacement of major components during the next 30 years.

However, in order to ensure the association's projected reserve expenditures, the association should approve annual increases starting in fiscal year 2023 and continuing thru fiscal year 2052. By using the enclosed 30 Year Reserve Study Funding Plan, a Special Assessment WILL NOT likely be necessary to fund the reserves.

In general, the Oak Hills Homeowners Association is overall in GOOD CONDITION. The baseline funding strategy sets a funding goal of keeping enough cash to maintain the association's reserve components always. The approximate replacement/repair costs for Association reserve components is estimated at approximately \$642,585.

Golden Consulting Group has estimated the projected average future cost of repairs and replacement of those components for the Association. The annual reserves are based on a straight- line approach: Replacement Costs divided by Life Expectancy per each component. Based upon the Golden Consulting Group's calculations the annual reserve contribution would be approximately \$44,837 a year. The estimated fully funded accrued amount or the aged components is approximately \$240,167. This is calculated Life Expectancy minus Remaining Life times (x) annual reserve contribution. The recommended annual reserve contribution for fiscal year beginning, January 1, 2023, should be increased from \$25,824 to \$32,280 or \$10 per unit per month a 25% increase from previous year with annual increases each year starting in fiscal year 2023 to ensure the capital improvements/maintenance obligations of the Association.

Golden Consulting Group uses a 2.5% annual cpi inflation rate to calculate the 30 year funding maintenance plan. However, based on the inflation rates listed below the average inflation rate over the last 18 years is 2.2%.

PERCENT FUNDED	106%
Current US Inflation Rates: 2000-2020	3.00%
Estimated Interest Rate Reserve Account(s)	0.00%
Annual Reserves Required (Based on Straight Line Funding Method)	\$44,837
Reserve Account Balance as of June 1, 2022	\$263,443
2022 Reserve Contribution (June-Dec)	\$9,828
2022 Average Interest Rate on Reserve Account @ .00%	\$0
2022 Reserve Expenditures	-\$18,594
Estimated Reserve Balance as of FYE, December 31, 2022	\$254,677
Fully Funded Accrued Reserve Amount as of FYE, December 31, 2022	\$240,547
Reserve Balance - Fully Funded Balance Surplus:	\$14,130
Reserve Balance - Fully Funded Balance Surplus Per Unit	\$53

The estimated reserve account balance does not take into consideration any monies owed to the reserve fund and/or any delinquent accounts. The estimated reserve balance only includes actual cash on hand located in the reserve account as of June 1, 2022 and any future reserve contributions minus any anticipated reserve expenditures.

Showing a reserve deficit/surplus does not necessarily indicate that an association is in good or poor financial condition. The current funding plan will help eliminate the presence of surplus and/or deficit over a period of years. However, funding levels could decrease or increase each year based upon repairs and/or replacements which may be scheduled and for unforeseen replacements, in which annual reserve updates are necessary to account for the changes and/or adjustments.

IMPORTANT NOTICE FOR ALL ASSOCIATIONS WITH EXTERIOR BALCONIES, DECKS OR STAIRS

EXTERIOR ELEVATED ELEMENTS "EEE" INSPECTION REPORT N/A Applicable

Civil Code 5551: Common interest developments: Requires an inspection of exterior elevated elements (EEE) and associated waterproofing elements, as defined, including decks and balconies, for buildings with 3 or more multifamily dwelling units. The first inspection shall be completed by January 1, 2025, and then every nine years thereafter in coordination with the reserve study inspection pursuant to Section 5550. All written reports shall be maintained for two inspection cycles as records of the association. At least once every nine years, the board of an association of a condominium project shall cause a reasonably competent and diligent visual inspection to be conducted by a licensed structural engineer or architect of a random and statistically significant sample of exterior elevated elements for which the association has maintenance or repair responsibility. See Civil Code 5551 in its entirety.

Balconies and decks, called "Exterior Elevated Elements" ("EEE") in the statute, are common features in most multi-family buildings in California. Buildings containing three or more multi-family dwelling units are covered by the Balcony Bill. The bill covers not just "balconies" or "decks" and their associated supports and railings, but all "exterior elevated elements" – which is notably broadly defined to include "balconies, decks, porches, stairways, walkways, and entry structures that extend beyond exterior walls of the building and which have a walking surface that is elevated more than 6 feet above ground level, are design for human occupancy or use, and rely in whole or in substantial part on wood or wood-based products for structural support or stability of the exterior elevated element – and "all associated waterproofing elements." The new statute applies to multifamily units with 3 or more units.

The enclosed reserve study/update is not a maintenance manual, but it does provide some general guidelines regarding the association maintenance obligations. This Reserve Study is a good faith estimate from either plans prior to construction and/or completion and/or existing historical data. The association should conduct or should have conducted a reserve study after its first year of operation to adjust the reserve funding plan for any changes which may have taken place during construction. Although some components may be inspected, serviced, and maintained by the Association, it's always advised to have a qualified licensed professional perform the maintenance and care of the product. If you are unsure of the maintenance, please refer to the manufacture's user guide.

The enclosed reserve study/update should act as a long-term budgeting tool that evaluates the current financial status and helps develop a maintenance plan for future spending due to the aging and deterioration of the association's reserve components.

During an on-site visual inspection of the reserve components, Golden Consulting Group will visually examine both the both physical appearance and working condition of the component(s). Normally only those components which have an estimated useful life of less than 30 years will be included in the study, in which the Association would be responsible for the maintenance (repaired, replaced, or service).

Any component that is scheduled to be repaired or replaced annually should be included in the operating budget unless the Board of Directors specifies otherwise. This reserve study is not intended to be used to perform an audit, an analysis of quality, a forensic study, or a background check of the historical records. No destructive testing has been undertaken nor will the study address any latent defects or life expectancies which are abnormally short due to either improper design and/or installation unless the Association or members has contracted with an independent consulting to examine and report the findings on specific components. The reserve study is solely based upon the visual condition, maintenance, service and/or the replacement of the reserve components rather than the reconstruction, renovation, or remodeling of the component(s). It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. It's always recommended and advised to have a qualified licensed professional perform the maintenance and care of the components. If you are unsure of the maintenance of a specific reserve component, please refer to the manufacturer guide.

Per Civil Code §5300(b)(4)) The board of directors of the association must disclose if they determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement.

For Fiscal Year Ending 2022: The board **HAS** chosen to defer maintenance and/or replacement of the anticipated reserve expenditures. (see study for more information)

The Anticipated Reserve Expenditures were as follows for Fiscal Year: 2022

Concrete Repairs/Replace Sidewalks	Completed

Restroom Exhaust Fans	Deferred
Drinking Fountains	Removed
Paint WI Gates & Fencing	Deferred
Irrigation System	Deferred
Playground Ground Cover	Deferred
Swing Chair Chain	Deferred
Greenbelt Doggy Stations	Deferred
Map Information Sign	Deferred

Maintenance will only be deferred 1 Year unless the Board of Directors specifies otherwise.

It is our recommendation that all anticipated reserve expenditures scheduled for fiscal year 2023 be inspected, repaired, or replaced as indicated by a professional. Fully funded reserve components are components that have reached its useful life and/or exceeded its average life expectancy. The board should inspect and review each component before approving deferral, replacement and/or repair of the reserve components.

FUNDING DISCLOSURE SUMMARY

[Civil Code §5300(e)]

(b) For purposes of preparing a summary pursuant to this section:

1. "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
2. "Major component" has the meaning used in section 55530. Components with an estimated remaining useful life of more than thirty (30) years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the reserve study report and reported in the Assessment and Reserve Funding Disclosure.
3. The form set out in subdivision (a) shall accompany each pro forma operating budget or summary thereof that is delivered pursuant to section §5300 this article. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
4. For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.

Due to factors beyond the control of the Directors, including but not limited to the rate of inflation, the rate at which the major components actually deteriorate, unanticipated damage to the major components, fluctuations in material and labor costs and changes in building codes and regulations, the accuracy of the information set forth above is not, and cannot be, guaranteed. Depending upon the accuracy of the present and future assumptions used in providing the information and conclusions set forth in said may not be correct.
